Subject: RE: URGENT request: Message re. Wayne Plating Removal

All:

It seems that various individuals at the City of Dallas are reaching out to various folks here at the EPA. So far, it appears that Carlos and I are the only ones who have responded to the City. Carlos has spoken with Mr. Dugdale, and I have spoken with Mr. Vu. It would appear that Mr. Dugdale had not spoken to Mr. Vu before he sent this e-mail to Susan.

Here is the status with the City from my perspective:

I spoke with Mr. Joseph Vu (Environmental Engineer) with the City on Friday morning around 10:30 AM. Mr. Vu informed me that he had a copy of the SI report for the Lane Plating site (he received from the TCEQ) and had a few questions. I provided Mr. Vu with a synopsis of the site and an overview of what EPA has done at the site thus far. I informed him that currently, an HRS package is being developed for the site to determine if it is eligible for listing on the NPL. He told me that the City was having an internal meeting on Monday (today), and that there would likely be follow-up questions from the City. He suggested that EPA and the City might have a face-to-face meeting here at the Regional office to answer their questions. Of course I told him that EPA would be happy to meet with the City and answer their questions. Obviously, one of the questions the City has concerns potential liabilities associated with the site.

Mr. Vu was also interested in the Removal Action completed by the EPA at the site. I provided Mr. Vu with the narrative portion of the Removal Report, the figures, and the pollution reports (Appendix D). As stated above, Mr. Vu already had a copy of the SI Report.

I will contact Mr. Dugdale this morning to see if he has any other questions before their internal meeting this morning.

Thanks,

Bret Kendrick

Ben,

John Dugdale with the City of Dallas is asking questions concerning Lane Plating. Pam asked that I forward this to you for a more holistic response.

Thanks,
Ronnie

Subject: Message re. Wayne Plating Removal

Hi, Susan:

I've returned to the side of goodness after 19 years in the private sector, and so I'm now the only environmental lawyer in the entire City of Dallas and the general counsel to the Dallas Water Utilities Dept. A little while ago I left you a VM on your cell no., to which I gather you forwarded your office line – I have your cell no., so I called that number after I called your office number to confirm my suspicion regarding forwarding. Anyway, could you call me asap? The City has a park adjacent to the Wayne Plating site, and I understand the Region has begun a listing investigation. I need to know as much as possible about the situation since no one in the entire City knows anything about Superfund, and we need to know the facts, etc. etc. Carlos said his group hasn't become involved yet, so I need to talk to you, even though your OSC isn't available today.

We're having an internal meeting Monday and our environmental engineer, Joseph Vu, will be out of the office, I'd like to have him get a sense of where the Region is on the matter so I can get this thoughts before our internal meeting. Joseph has already has learned from someone at the Region that the listing package won't be complete for a

while, and I've arranged w/Carlos to get a copy of the action memo. However, since this is your program, and since I'd like to catch up, it would be more efficient for us to talk asap, even before your OSC is back in the office.

So, could you give me a call at the office at the number below, or on my cell at (b) (6) I look forward to hearing from you.

John Dugdale
